SOL+plus project HQ

Company introduction

Policy

Hello, I am Sol Lim Lee.

I'm a very lucky person.

This is because I was able to discover the idols that are shining at the center of K-POP, such as SNSD's Taeyeon, SHINee's Onew, EXO's Kai, Mamamoo's Moonbyul, and iKON's Jinhwan, among others. One of the reasons so many people have given me praise for finding the best stars. Each star worked long and hard to reach their current status, so I do feel guilty when people are always praising me for only discovering them. They are the ones who worked long and hard to achieve their dreams. I do however; feel blessed to have been able to meet each and every one of them as a person, to help guide them to realize their own dreams.

Let me share with you the lyrics to one of my favorite songs, The Color of the Wind - "If you cut it down, you'll never know how high it will grow". And just like the lyrics from the song, children's potential are limitless. Singers, actors, idols, rappers, choreographers, lyricists, composers, and so on. There are many children who dream of becoming a pop culture artist, but it is very hard to achieve that dream.

Why don't we support the children who have the courage to go one step further in achieving their dreams?

SOL+ project supports our children's dreams. Together with our future Hallyu stars, we take that first step, and we will help the children to reach their dreams by developing infinite possibilities. We will do everything possible to help the children grow and become someone who realizes their dreams and succeeds.

I believe anyone who has a dream can achieve anything if they put their mind to it. This is why I have worked in the pop culture industry for the past 20 years and it is also my constant philosophy of education. I will support and believe in all the children who have dreams.

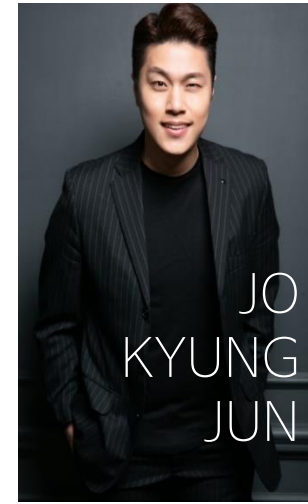

Sincerely,

A handwritten signature in black ink that reads "Lee Sol Lim". The signature is written in a cursive, flowing style with a large, stylized 'L' at the beginning.
